	30 amp	\$50.00/month

Hurricane Haul-Out Program:

The Dataw Island Marina Storm Haul-Out Reservation Program is designed to help local boaters arrange for the care of their vessels in advance of a named storm which is predicted to or will likely have an adverse effect on boats located locally in the water or on exposed boat lifts.

- Priority haul-out in case of a named storm
- Land-based storage during the storm event
- Launch service after the storm event
- Should a named storm not necessitate haul-out during the contract period, each boat will receive one complimentary haul-out in December, January or February

For vessels that may be moved with the Forklift: \$850 reservation fee per year. Hauling and blocking fees are an additional \$9 per foot.

For vessels requiring use of the Travel Lift: \$1,350 reservation fee per year. Hauling and blocking fees are an additional \$17 per foot for each haul-out.

These fees allows Dataw Island Marina to procure the necessary equipment to ensure the participants in this Program have the materials (e.g., bunks, racks, etc.) available to haul and store the vessels.

Also ask about additional maintenance available from our on-site boat yard operator, Marine Tech Services.
